specifications

easy install

WriteInfinity Installation Procedure

- Step 1** **For new drywall:** prime wall with high-quality commercial water-based paint primer.
For painted walls in good condition: lightly sand with 150-grit, then clean surface.
For walls needing repair or color change: apply a high-quality, commercial water-based primer tinted to desired color. Install this step using 3/8" nap microfiber roller cover provided.
- Step 2** Inspect surface for any unwanted texture. If present, lightly sand surface to ensure it is as smooth as possible.
- Step 3** Install WriteInfinity using 3/8" nap microfiber roller cover provided (note: do not shake or stir) using the installation techniques outlined in detail in the instructions accompanying each kit. Desired coverage is approximately 40 sq ft per each loaded roller cover.
- Step 4** Always inspect your work from all angles to ensure full, even coverage.
- Step 5** Allow to cure for 3 days prior to writing on surface with approved dry erase markers.

accessories

WriteInfinity is available with a complete line of accessories and optional finishing products. A wide selection of aluminum trims and marker trays offers convenience, cleanliness and aesthetic appeal.

Care and maintenance items will ensure your installation endures everyday use. Choose from recommended markers, microfiber cloths, erasers and dry erase cleaners.

warranty

WriteInfinity is covered by a ten year limited warranty. This warrants that WriteInfinity meets the design criteria noted in our specifications when properly applied per our recommended installation instructions.
